# TO HELP YOU WHEN YOU TELEPHONE

---

★

There are eight telephone centers throughout the camp where we have provided facilities to help you in getting your telephone call through. Attendants are available at these locations to furnish assistance and information. At times when thousands of soldiers arrive in Camp at once, delays on calls are unavoidable, here or somewhere along the line. You can be sure, however, that we shall do our utmost to get your calls through, keeping telephone centers open all night if necessary. If you are willing to wait, we'll keep trying. Do not hesitate to ask for help—that's what the telephone people are here for.

## **There are two kinds of long distance calls**

Station-to-Station Calls (when you will speak with anyone who answers). Somewhat cheaper and faster than person-to-person calls.

Person-to-Person Calls (when you ask for a particular person). Charges do not begin until conversation starts with the specified person or switchboard extension.

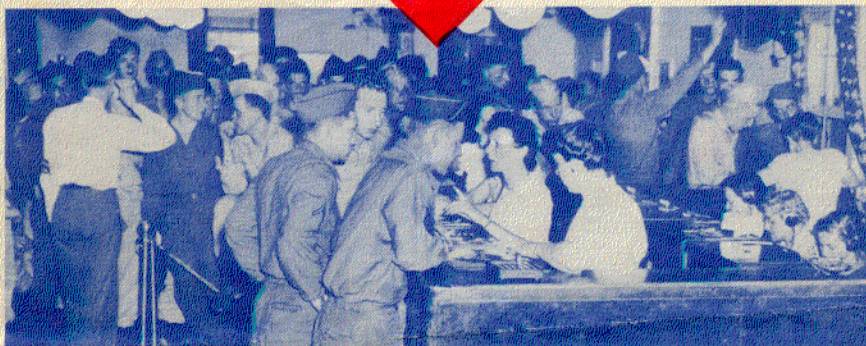

## **Reduced rates start at 6 p. m. weekdays**

and are in effect all day Sundays

## **You can "reverse the charges" if you wish**

Just tell the operator *when you place the call*. No extra charge for this service on calls having a station-to-station rate of 25¢ or more.

## **WHEN IT'S LIKE THIS**

## **Give your Buddy a break**

## **— BE BRIEF**
