

TELEPHONE SERVICE

CAMP MYLES STANDISH

AT CALLING HOME, SOLDIER?

The telephone people and the telephone equipment that you see around you, and pictured in these pages, are here for that one reason! To make that call for you.

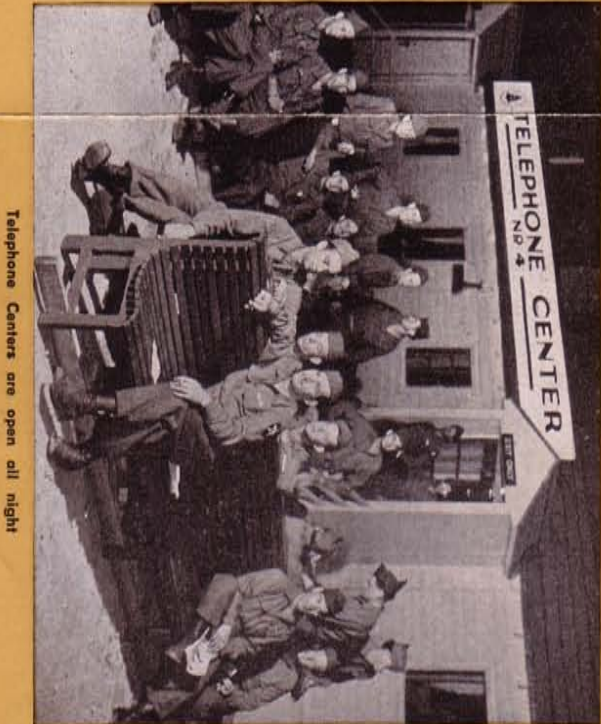

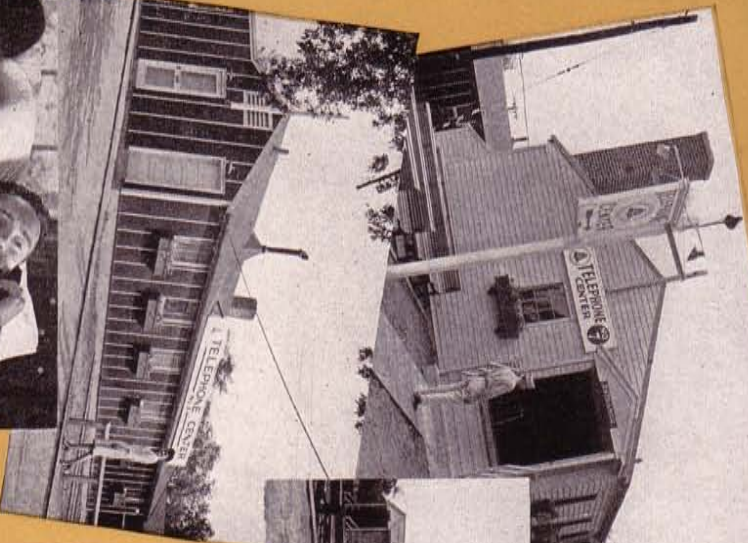

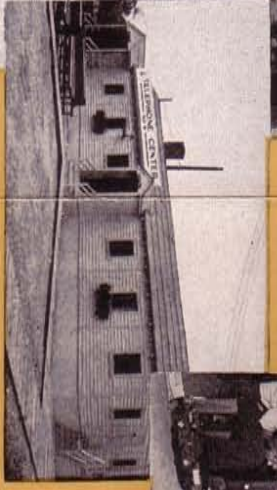

There are six of these "Telephone Centers" in camp, with 89 booths and 160 lines. It's the job of about 250 men and women to provide service for you here, and it takes 65 more to run the special Central Office in Taunton that sends your call on its way.

Sometimes it will be necessary for you to wait for your call to be completed — even to nearby places. With thousands of calls just like yours going over the same wires, it isn't possible to get them all through as quickly as we would like. But these Centers will be open as long as you need them, day or night. If you shouldn't get your call on the first try, we'll keep after it until you leave camp.

NEW ENGLAND TELEPHONE AND TELEGRAPH COMPANY

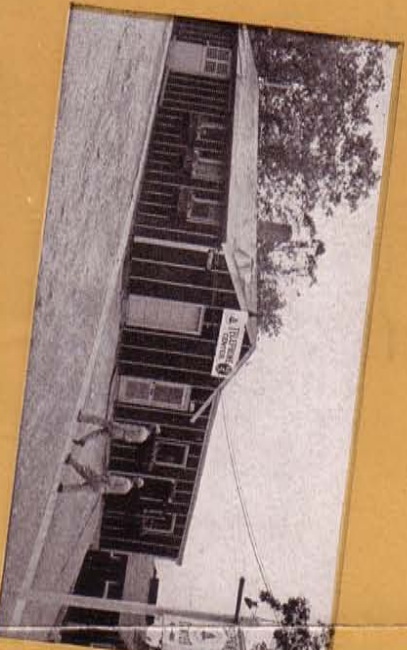

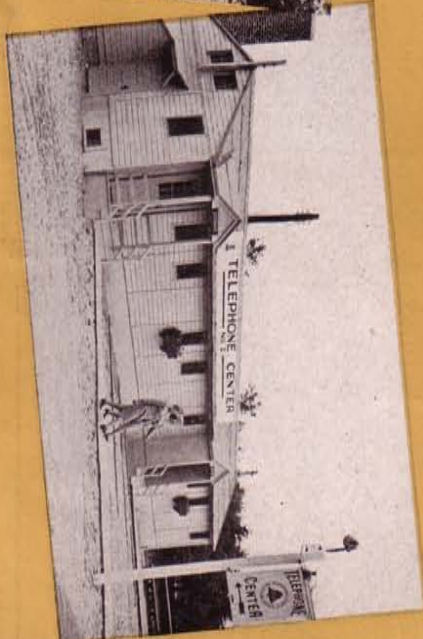

There's a lot of work to setting up a switchboard

There's bedside telephone service, too

Telephone Centers are open all night

JUST ARRIVED
